

Go To Settings

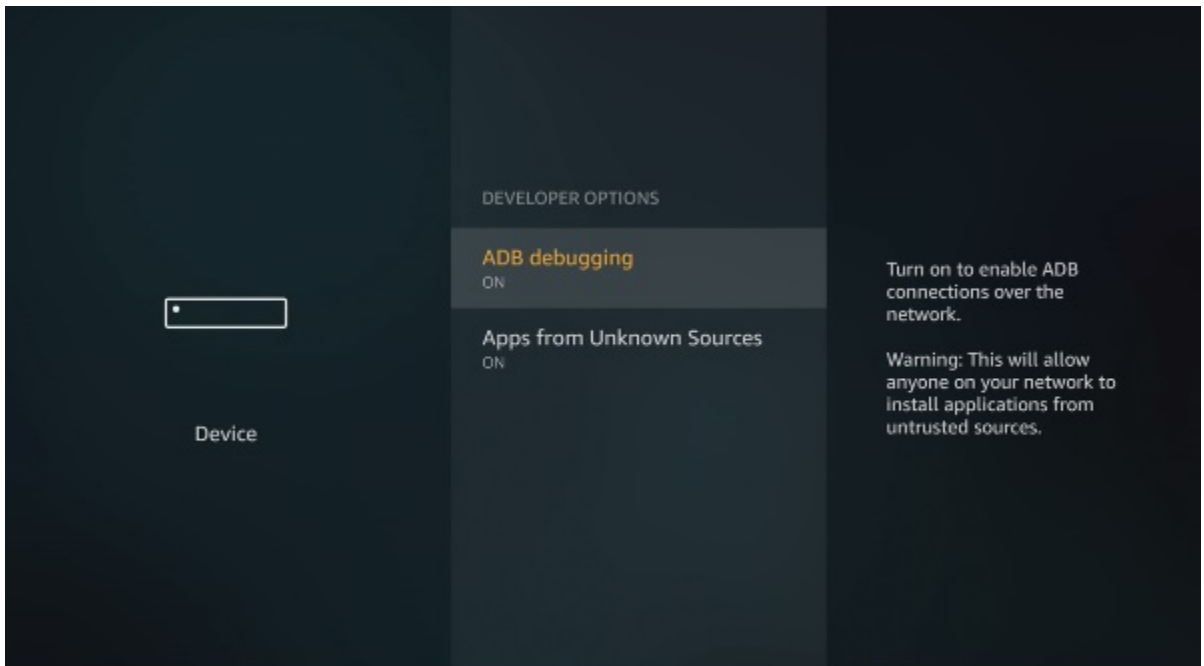

Then go to "My Fire TV"

Then, go to Developer Options. **If you cannot see Developer Options, click 6-7 times on "About" and Developer Options will appear**

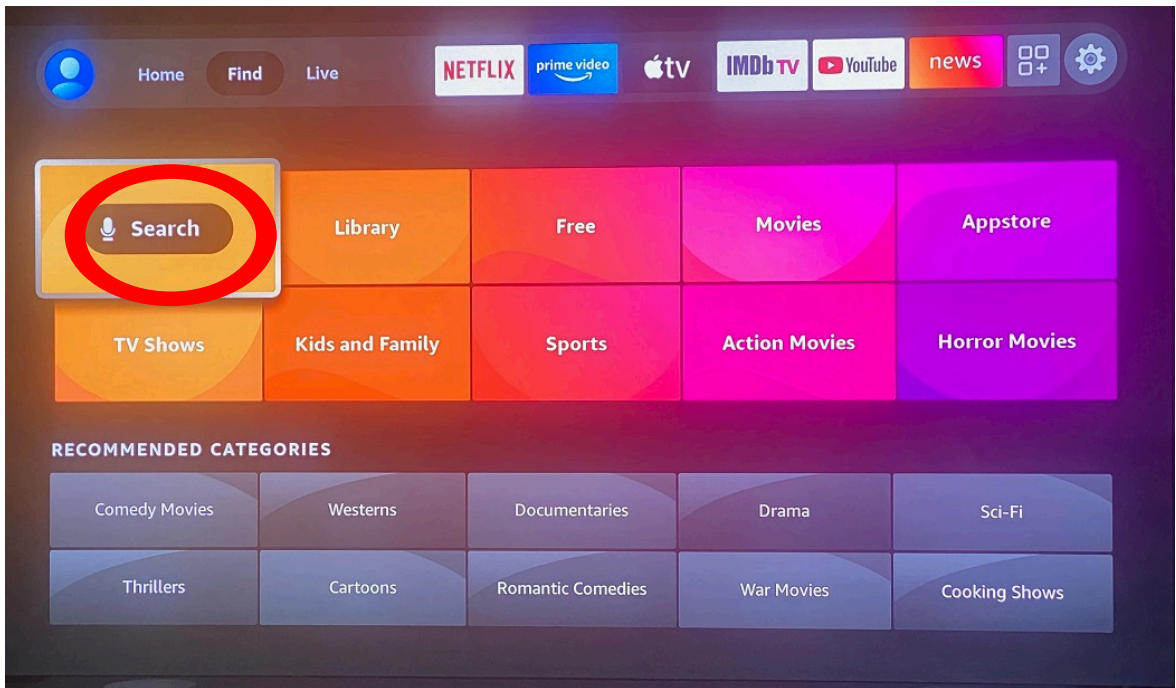

And set **both** entries to ON, as below

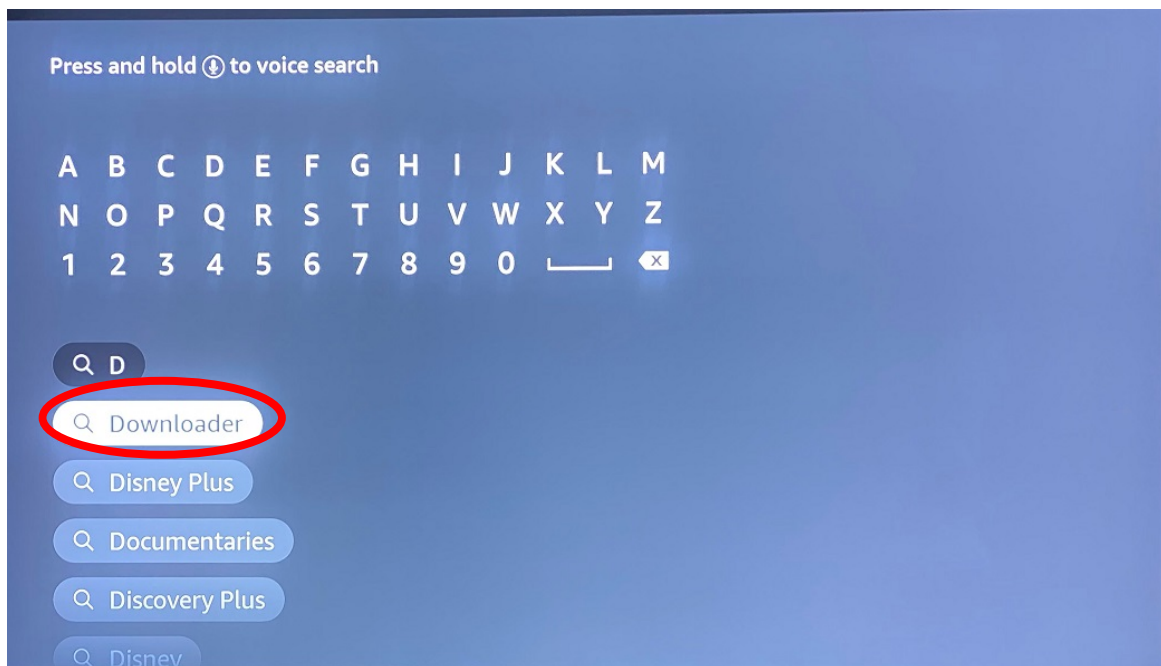

Press the HOME button to exit to Home Screen

Go to Find, and then Search

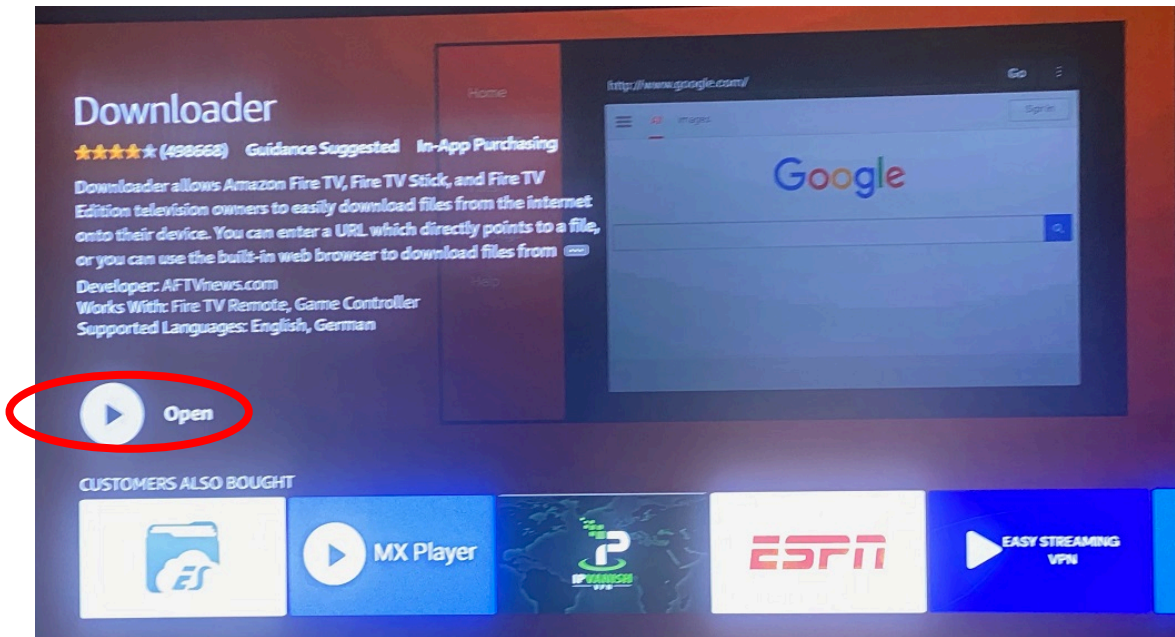

Type in "D", then go down and select Downloader

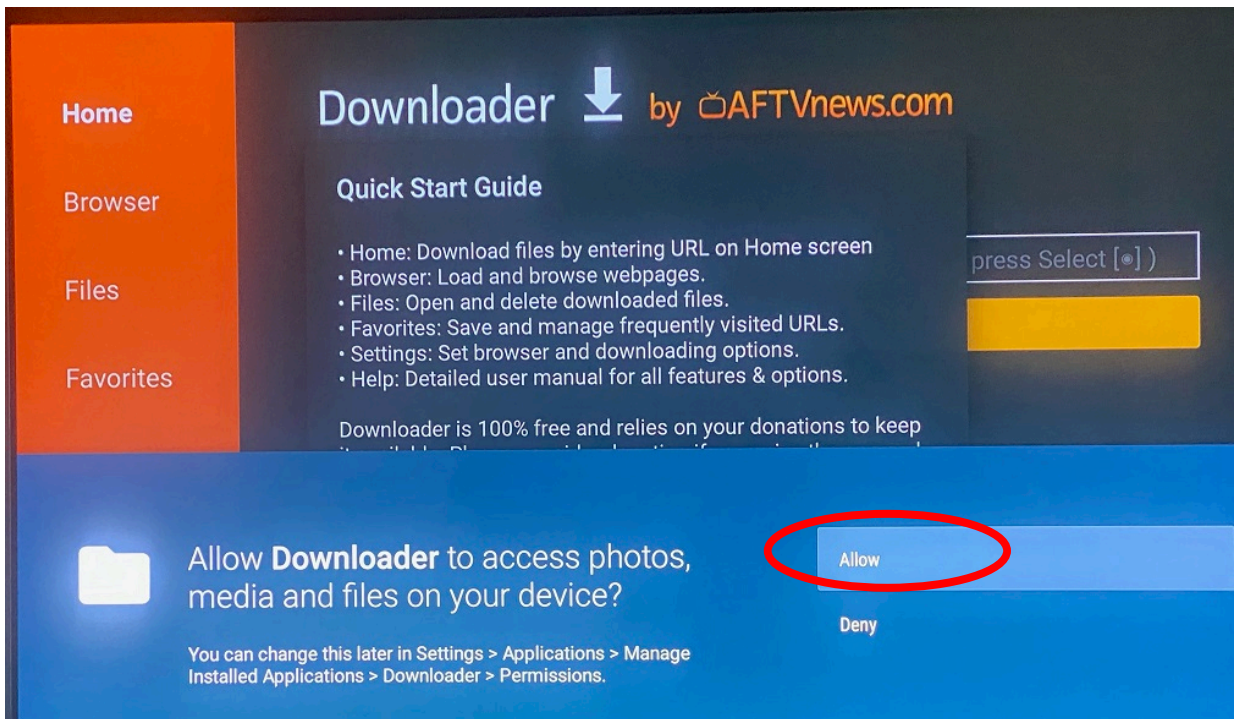

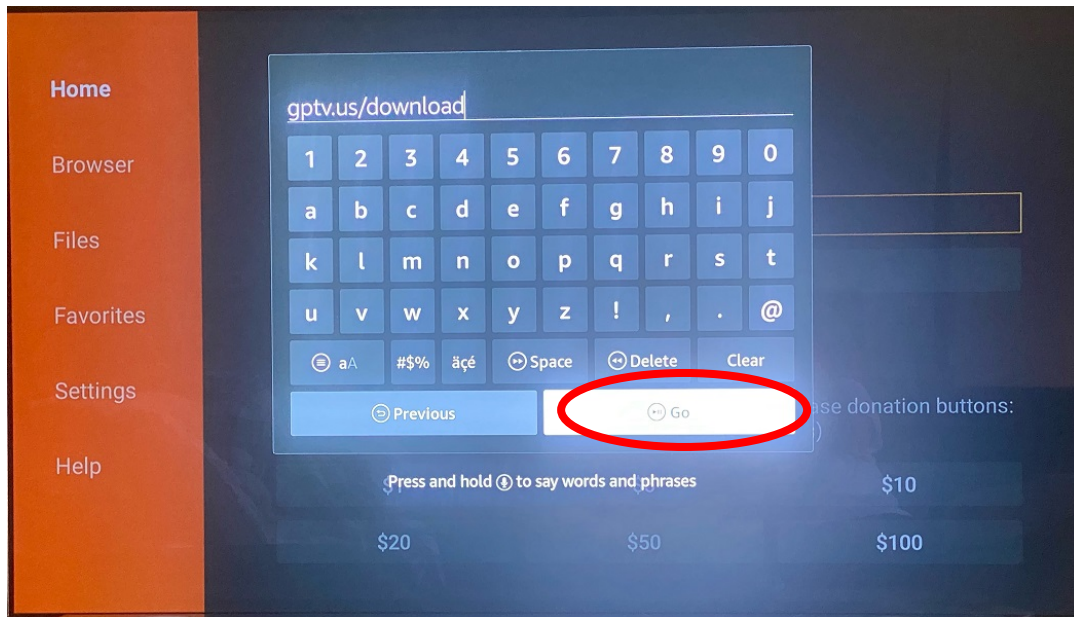

In the following screen, select "Download", or "Get" and when it is ready, select "Open"

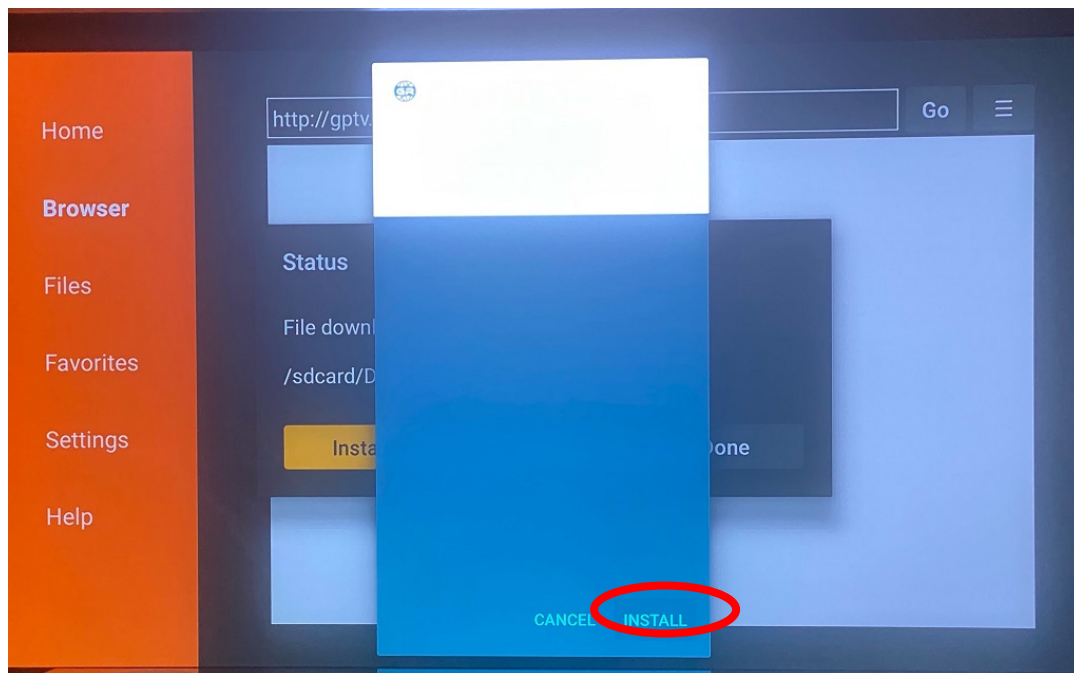

When prompted, select "Allow"

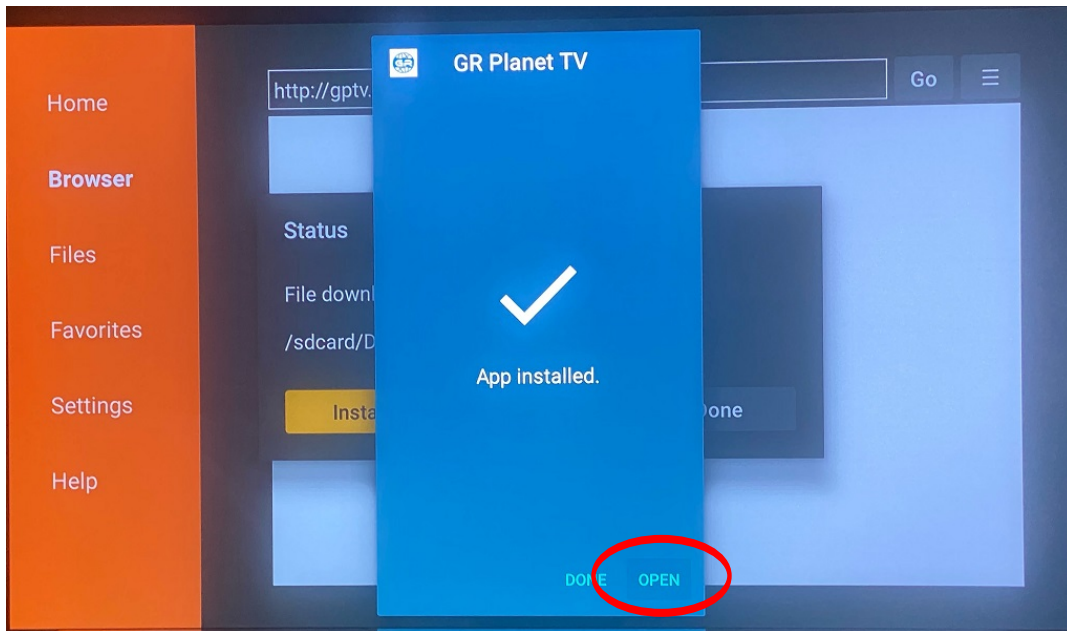

In the "Enter URL" box type in: **gptv.us/download** as below, and then select "Go"

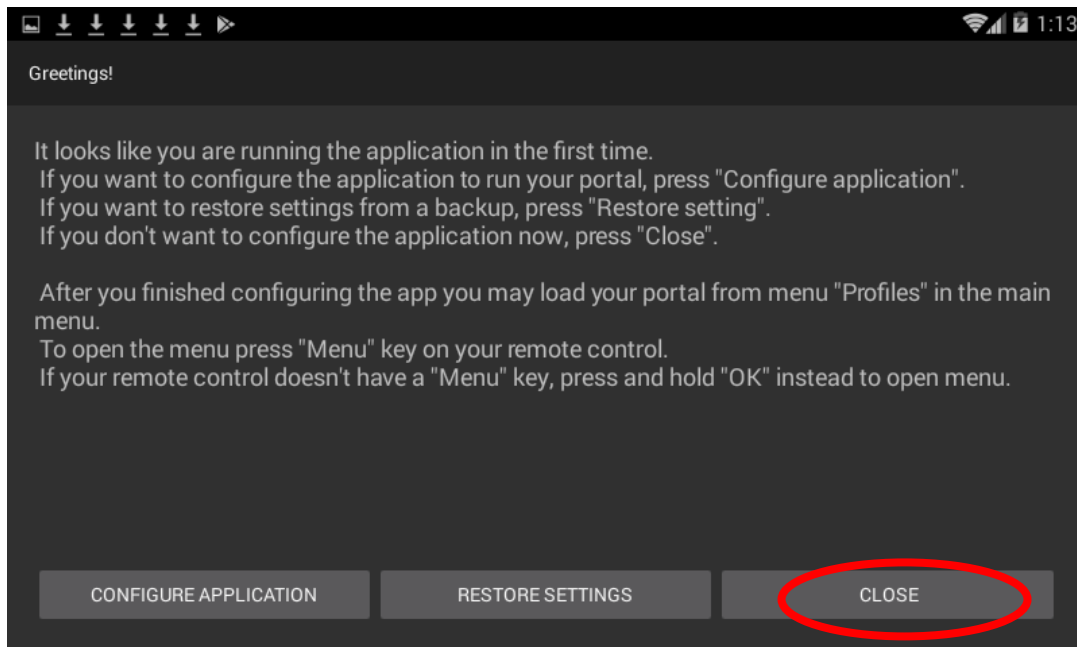

When download is complete, select "Install"

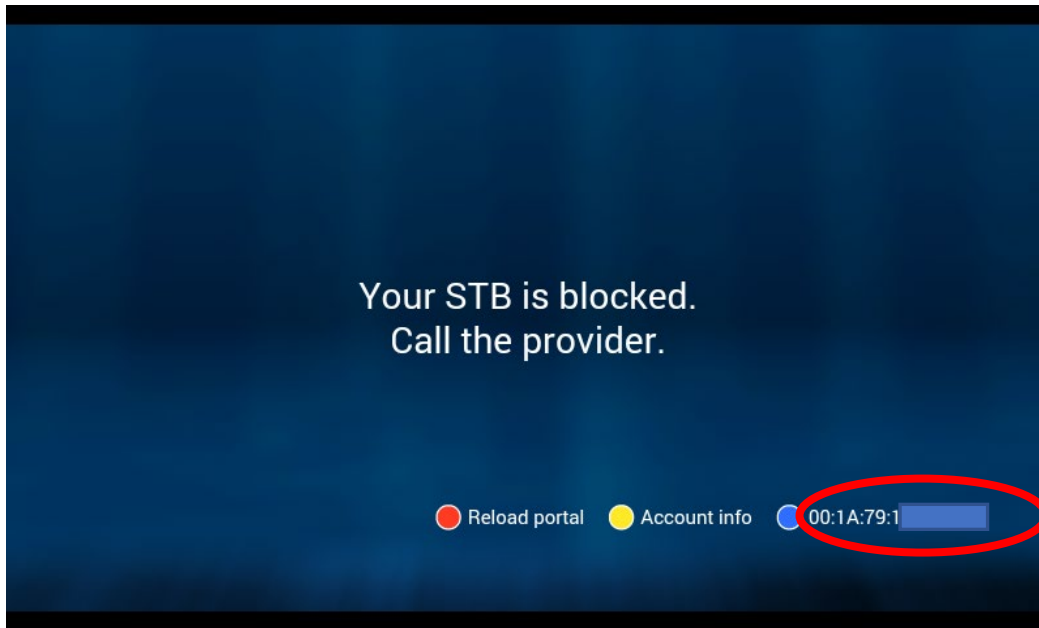

When installation is complete, select "OPEN"

Then select "Close"

You need to **contact us** and give us the numbers you see at the bottom-right part of your screen, so we can activate the service.

After activation you need to press the MENU button (the one with the 3 lines) on your remote, then go to PROFILE, and click twice, so you can enter the service
